

# > IIAS fellows

1 September 2005 - 31 December 2005

IIAS hosts several categories of post doctoral researchers (fellows) in Asian Studies. Sponsorship of these fellows contributes to the institute's aim of enhancing expertise and encouraging the exploration of underdeveloped fields of study. One of the main objectives of IIAS is to mediate in establishing contacts in the field of Asian Studies and to stimulate cooperation between national and international scholars and institutes. IIAS consequently offers universities and research institutes the opportunity to benefit from the knowledge of its resident fellows. In terms of their scholarly contribution to IIAS, fellows are invited to present lectures, participate in seminars, and cooperate in research programmes. IIAS fellows' applications can be submitted at any time (no application deadline). More information and IIAS fellowship application forms are available at:

[www.iias.nl/iias/fellowships.html](http://www.iias.nl/iias/fellowships.html)
